PROFESSIONAL SUMMARY

Solution Architect with 4+ years in IT across infrastructure, cloud security, and enterprise SaaS on Microsoft Azure and Microsoft 365, after a start in bancassurance sales. Leads presales demos and requirement gathering for VATSIN and its sister company Bless Tech Solutions. Product Owner and Lead of Vatsin Workspace, a 17-product multi-tenant Indian HR, payroll, and workplace SaaS suite built in about 10 weeks with Next.js, TypeScript, PostgreSQL, React Native, and a self-hosted Qwen AI assistant. Security background in Microsoft Entra ID, Conditional Access, MFA, RBAC, Privileged Access Management (PAM360), Microsoft Defender, Intune, and SIEM. Led a Microsoft 365 tenant compromise recovery with zero data loss, a PAM360 high-availability rollout for a Saudi government organization, and migrations of 10,000 users (Google Workspace to Microsoft 365) and 5,000 users (tenant-to-tenant).

SKILLS

- **Development:** TypeScript, Next.js, React 19, Node.js, Flutter, Python (FastAPI), Tailwind CSS, React Native (Expo), Prisma, PostgreSQL, Redis, REST APIs, Webhooks, Multi-Tenant SaaS, Dynamics 365 Business Central (AL), Microsoft Graph, Power Automate
- **AI:** Self-Hosted LLMs (Qwen via Ollama), OpenAI GPT-4, Google Gemini, Deepgram, ElevenLabs, Hugging Face, Azure OpenAI, Azure Document Intelligence, AI Agents, AI-Assisted Development (Claude Code, OpenAI Codex, Google Antigravity)
- **DevOps & Reliability:** Git & GitHub (Version Control), AWS (Lambda, S3, EC2), Docker, Kubernetes, nginx, PM2, GitHub Actions CI/CD, WAL-G Point-in-Time Backups, Read Replicas, Disaster Recovery (DR), k6 Load Testing, Patroni HA, HAProxy, Windows NLB
- **Identity & Access Management:** Microsoft Entra ID (Azure AD), Conditional Access, MFA, RBAC, Least Privilege, SSO/SAML, SCIM, Passkeys, Identity Governance, Active Directory, Privileged Access Management (ManageEngine PAM360), Zero Trust
- **Cloud & Microsoft 365 Security:** Microsoft Azure, Defender for Cloud, Azure Key Vault, NSG/ASG, Azure Firewall, Defender for Endpoint (EDR), Defender for Office 365, Intune, Secure Score, Exchange Online Protection, SharePoint & OneDrive Controls
- **Security Operations (NOC & SOC):** ManageEngine Log360 SIEM, Site24x7 and ManageEngine OpManager (Configuration and Monitoring), Incident Response, Audit Logging, Field-Level Encryption, CSP, CERT-In Reporting, DPDP Act Compliance, Sophos & SonicWall Firewalls, IPS/IDS, VPN
- **Migration & Platforms:** Google Workspace to Microsoft 365, Tenant-to-Tenant Migration, SharePoint Online Migration, SysTools, ManageEngine ServiceDesk Plus MSP, Windows Server, Linux, PowerShell, Bash, MySQL, MSSQL

PROFESSIONAL EXPERIENCE

Senior Software Engineer

VATSIN Technology Solutions Pvt. Ltd., Gurugram | May 2026 – Present

- Leads presales demos and requirement gathering for VATSIN and its sister company Bless Tech Solutions Pvt. Ltd., turning client needs into solution designs.
- Product Owner and Lead for Vatsin Workspace (see Key Products): set product vision, scope, priorities, and compliance decisions, and directed design, development, testing, and documentation.
- Built client portals on Dynamics 365 Business Central: a Procure-to-Pay workflow portal for a multi-plant chemicals manufacturer, and, as lead developer of a 4-person team, a sales, CRM, and licence-compliance portal for a fumigants manufacturer and exporter.
- Implemented ManageEngine PAM360 for a Saudi government organization with high-availability PostgreSQL (Patroni), HAProxy, and Windows NLB; integrated ServiceDesk Plus MSP for a client.

System Administrator – Azure & Microsoft 365 Infrastructure Security

VATSIN Technology Solutions Pvt. Ltd., Gurugram | Oct 2025 – Apr 2026

- Recovered a compromised Microsoft 365 tenant with Microsoft Support, restoring access with zero data loss; completed post-incident hardening including admin role cleanup, Conditional Access redesign, and audit log review.
- Migrated 10,000 users from Google Workspace to Microsoft 365, and 5,000 users in a Microsoft 365 tenant-to-tenant migration including SharePoint Online data using SysTools.
- Implemented organization-wide MFA, Conditional Access, and device compliance policies across a 500+ user environment.
- Enforced RBAC and least-privilege access across Azure workloads; configured Microsoft Defender for Endpoint for EDR and device security.
- Investigated and remediated risky sign-ins and compromised accounts, and improved Microsoft Secure Score through policy hardening.
- Served as L2/L3 escalation owner for security incidents involving Azure, identity, and endpoints.

Server / Infrastructure Engineer

Compton Computers Pvt. Ltd. | Oct 2024 – Sep 2025

- Managed and hardened 10+ Linux VPS and Windows servers, and secured Microsoft 365, Google Workspace, and Zoho for clients.
- Configured and migrated Sophos and SonicWall firewalls with IPS/IDS, web filtering, and VPNs.
- Designed security architecture for a 1,100-camera surveillance command center with multi-petabyte storage.
- Delivered high-availability and disaster recovery for ERP, Active Directory, and application workloads; deployed Log360 SIEM.

Technical Support Engineer

Enterprise Software Solution Lab Pvt. Ltd. (eSSL Security) | Dec 2021 – Jul 2024

- Supported secure deployment of biometric access control systems and administered their MySQL/MSSQL databases.
- Created solution documentation and security guidelines, and delivered technical training to client IT teams.

Sales, Bancassurance

Bajaj Allianz General Insurance (on the payroll of Bajaj Allianz Staffing Solutions Pvt. Ltd.) | Sep 2020 – Nov 2021

- Delivered 250% sales growth in the assigned zone, selling through partner bank branches.

KEY PRODUCTS (VATSIN)

Vatsin Workspace – Multi-Tenant HR, Payroll & Workplace SaaS Suite

Product Owner & Lead | Aug 2026 – Present | In development (pre-launch)

- **Product:** 17 products on one employee record (HRMS, Payroll, Attendance, Recruit, LMS, Contract Labour, Helpdesk/ITSM, Asset Manager, Visitor, Canteen, RFID Access, Password Manager, and more), sold individually or as 10 industry bundles.
- **Indian Compliance:** PF, ESI, PT, LWF, TDS under the Income-tax Act 2025 (Form 138 FVU), Labour Code 2026 registers, gratuity, F&F, CLRA contract labour, and DPDP Act tooling.
- **Shop Floor, Mobile & AI:** Kiosk face/PIN punch, eSSL/ZKTeco biometrics, RFID, piece-rate rules; Android apps in 10 Indian languages; self-hosted Qwen assistant (Ollama) with OCR and an MCP server; WhatsApp, Slack, and Teams bots.
- **Architecture & Security:** Next.js 15, TypeScript, Prisma, PostgreSQL, React Native on Azure; multi-database tenancy with tenant routing, read replicas, Redis, Kubernetes, WAL-G backups, cross-region DR; SSO/SAML, SCIM, passkeys, field-level PII encryption.
- **Scale:** ~670K lines of TypeScript, 1,640 API routes, 602 database models, 109 mobile screens, 219 test scripts, 800+ commits.

Procure-to-Pay Workflow Portal – Multi-Plant Chemicals Manufacturer (Client)

Full-Stack Developer | Delivered in phases | Next.js 16, React 19, TypeScript, Tailwind CSS v4, PostgreSQL, Prisma 7

- **Workflow:** One portal for request, DOA approval, RFQ, PO, gate entry, GRN and QC, three-way invoice match, and payment; every step has an owner, SLA, reminder, and escalation via a custom workflow engine with concurrency locks.
- **Business Rules & Integrations:** GSTIN, HSN/SAC, CGST/SGST/IGST, TDS, e-invoice IRN; idempotent budget and capex ledger; vendor KYC; rate, service, and import POs; Business Central, Microsoft Graph, Power Automate, and Azure Document Intelligence.
- **Role-Based UX & Scale:** Cut the requester menu from 17 links to 4; one-screen approval cards and buyer workbench; ~57K lines of TypeScript, 116 API routes, 45 models, 379 end-to-end checks.

Sales, CRM & Licence Compliance Portal – Fumigants Manufacturer & Exporter (Client)

Lead Developer, team of 4 | Prototype to production | Next.js 16, TypeScript, PostgreSQL, Prisma, NextAuth v5, Business Central (AL)

- **Business Central Sync:** Incremental sync of 12 entities through custom AL API pages every 15 minutes or on demand, with export-invoice conversion to INR, ledger-based balance recalculation, and sync history.
- **Licence Compliance:** A Business Central extension checks the portal before an invoice posts, so it is blocked, allowed, or sent to a maker-checker approval queue with amount limits; rules are kept in a no-code Licence Rules master.
- **Access & Insights:** 8 roles with row-level security on every server action and API route; one-screen dashboards for targets, pipeline, receivables aging, and market share; Customer 360; Microsoft Graph mailbox import.
- **Scale:** ~31K lines of TypeScript and AL, 58 database models, 30+ screens.

OTHER PROJECTS

- **Microsoft 365 Tools:** Duplicate mail cleanup for 50–100 GB mailboxes (SHA-256 matching, no hard deletes); tenant-to-tenant migration tool; branded M365 web mail client with license portal.
- **AI & Messaging:** Phone voice assistant in Indian English/Hinglish (Deepgram, GPT-4, ElevenLabs, Power Automate); multi-tenant WhatsApp campaign SaaS; Flutter cross-platform CRM.

CERTIFICATIONS & AWARDS

- Microsoft 365 Certified: Administrator Expert (2026) | Identity and Access Administrator Associate, SC-300 (2026)
- Microsoft Certified: SQL AI Developer Associate (2026) | ManageEngine Log360 SIEM (MECPA) | OCNA Wireless Certified (2025)
- Awarded Best Performance twice for solution delivery and infrastructure reliability.

EDUCATION

Bachelor of Computer Applications (BCA) | Sido Kanhu Murmu University, Dumka, Jharkhand | 2020
